RE: Letter of recommendation

To whom it may concern,

I am an environmental practitioner and National Environmental Policy Act (NEPA) specialist for the Colorado Department of Transportation. Over the past year, I have had the privilege of working with TerraLogic and would like to recommend the consulting firm and specifically, Art Hirsch for their excellence in environmental stewardship and compliance.

TerraLogic has been involved in the 120<sup>th</sup> Connection Design Build project in Region 6. Mr. Hirsch has made a positive contribution to all environmental aspects of the project. Among his strengths is the ability to effectively communicate with diverse stakeholders throughout the project's condensed design and construction schedule. He is professional and respectful of others' input. As a client, I appreciate his ability to anticipate issues and to take initiative towards finding a resolution in the best interest of the project.

It is my opinion that CDOT has benefitted as of a result of TerraLogic's involvement. His input has helped the 120<sup>th</sup> Connection project maintain costs and schedule while at the same time, furthering the agency's commitment to environmental quality.

Sincerely,

David Singer  
Sr. Environmental Project Manager  
Colorado Department of Transportation, Region 6
